

Cotton Museum Scavenger Hunt

Find the following answer by visiting The Cotton Museum.

1. Cotton is a plant that is grown from seeds.

How many cottonseeds can you find in the museum?

2. Music was very important to people that worked in the cotton fields.

How many musical instruments can you find in the museum?

3. Before cell phones people would go into small rooms called phone booths to make calls.

How many phone booths can you find in the museum?

4. After cotton is picked it is shaped into large squares called bales. Some bales can up to weigh 500 pounds!

How many bales of cotton can you find in the museum?

5. Cotton had an enemy, a little bug called a boll weevil. Cotton Farmers have learned how to get rid of them but there are a few in the museum (don't worry they aren't alive)!

How many boll weevils can you find?
